Making Waves: Charting Intelligence Career Paths in the Coast Guard

Project Title	Making Waves: Charting Intelligence Career Paths in the Coast Guard
Project Summary	Create infographics to help guide the careers of our Coast Guard Intelligence Workforce from start (recruitment) to finish (retirement), helping them navigate their career assignments, education, and training to be successful in supporting Coast Guard and national security missions.
Country	United States

Project Description

We are looking for visual designers to help update our career guides for our workforce with infographics and brochures that highlight training, education, and experiences for our different intelligence disciplines from cyber to intelligence analysis. Interns will learn about the Coast Guard, its rich history and its role in the Department of Homeland Security and the Intelligence Community. Familiarity with military and federal culture is a plus, but learning is part of this internship experience.
